Infrastructure, Properties and Planning

Planning for Accessibility on Campus
Andrea Haenlin-Mott
ADA Coordinator
October 17, 2017
Disability Planning on Campus

• Since 2006—Comprehensive approach to planning for accessibility
  • Prior to that approach varied
• Creation of ADA Coordinator Role for IPP
• Creation of ADA Coordinator Team—following
• Strategic Planning---Annual Plan
• 2016-2019 Streamlined Plan
  • Information Technology Accessibility
  • Educational Programming & Communication Campaign
ADA Coordinator Team on Campus

• Student Disability Services
  • Kappy Fahey

• Inclusion and Workforce Diversity
  • Angela Winfield

• Infrastructure Properties and Planning
  • Andrea Haenlin-Mott
Priorities for ADA Program

• FACT—Facilities Accessibility Compliance Tracking System:

• To address the comprehensive needs of accessibility across the Ithaca Campus, we have developed and utilized a Facility Accessibility Compliance Tracking system (FACT). This system helps to prioritize the needs for building accessibility. The four parameters that are determine when scoring a building/program/area are:
  • Public or private space
  • Number of people impacted
  • Supportive to Academic Mission
  • How transferable is the program or activity to like facility/location
Priorities for ADA Program

- Plan review---all stages---important for planning and site development
- Readily achievable barrier removal—projects on Campus
- Collaborations—Zones and Unit Facility Directors
- Cornell Design Standards
- Event Registration Forms
- Diversity and Inclusion
Collaboration with Campus Planning Office

• 2005 Entrance Data
• 2007 Path of Travel Data
• Updated Path of Travel Data 2015
• 2017 Data Improvement and Interactive Map
Accessibility at Cornell University

Location of accessible restroom in building: BARTON HALL

Ground Floor -- All Gender Single User, 1st Floor All Gender Single User and Women’s
Next Steps

• Refinement of data and information added
• Continual use of information to determine accessibility deficiencies
• Interactive map to a Story Board format
• Additional information to include:
  • Elevator data
  • Assistive Listening Systems (ALS) locations and available headsets
  • Highlighting unique areas
Projects of Significance

- Schoellkopf Seating
- Sage Chapel
- 391 Pine Tree Road
- AD White House
- Instructional Space
- Space Sciences
- Exterior Path of Travel Projects
- Teagle Hall
- Accessibility Blitzes
- Libraries
- Toilet Facilities
